RE: Whitetail Deer Hunting

Dear Dave:

In the fall of 2004 I decided to give my father a once in a lifetime birthday present. Without hesitating I knew exactly what to give him, a trophy whitetail deer hunt. After considering a number of North American options I selected Saskatchewan, Canada and Manley Outdoors as the partner for providing this unique present to my dad.

Before I get into the details, let me provide you with a quick note regarding our prior hunting experience. We have hunted whitetail deer in the southeastern U.S. for over 25 years. We own 600 acres of prime land in one of the premier whitetail hunting regions in the state of Alabama – the “black belt”. So we have some idea of what trophy hunting is all about or so we thought and that is what makes our experience with you even better.

Here is a quick summary of our experience. The accommodations were marvelous, the food was fit for a king, the hospitality was analogous to that of a five star hotel and then there was the hunt. Wow, the hunt! We saw an average of about ten bucks per day per person. 50% of those bucks had eight points or better and 20% of those bucks had ten points or better. I never thought I could be unimpressed by viewing 140 class bucks, but I must tell you as each day passed that was the perspective we developed. We had never seen that many trophy animals.

Let me take this opportunity to thank you, Leslie and Ken for making my father’s birthday present a lifelong memory. I sincerely appreciate the time that you and Ken invested in preparing for our arrival. I know that you guys started running baits and scouting several months before we arrived in camp and that certainly played a significant role in making our trip successful.

For the reasons already mentioned, our once in a lifetime experience will soon become our second annual trophy Canadian whitetail deer hunt. We simply could not resist returning for one of the best vacations ever. Based on these points, I would like to extend an invitation to any of your prospective clients to contact me directly to discuss my experience with Manley Outdoors. This is truly a trip of a lifetime!

Sincerely,

Rob Grubb
Senior Vice President
